

SAMPLEODDITY

MASSIVE PRESET

INSTALLATION GUIDE

1. Choose or create a folder where you will store Massive presets.
2. Unpack your **SampleOddity** Massive preset folder there.
3. In Massive, click **File > Options** (Win) or **Massive > Options** (Mac)
4. Select the **Browser** tab and click **Add**. This will open a file explorer.
5. Navigate to the folder that you created or chose in step 1.
6. Select that folder. It will be added to your **User Library Directories**.
7. In Massive, from the **Browser** options, click **'Rebuild DB'**
8. Your presets should now show up in Massive's browser, ready to go!
